

*The Trustees of the ICSVEBA understand the importance of keeping members informed of plan updates and changes and are excited to provide you with this month's Highlights newsletter to keep you informed of essential plan information. Please see the updates and "highlights" below and contact your Human Resources Department with any questions!*

As a reminder, with the change back to Delta Health System (DHS) effective 10/1/23, please make certain you are using your new DHS ID cards when you visit each of your providers. If you have not had a recent visit, they may still have your old information on file, and it is important that they update your information as this will affect how your claims are processed.
