I. INSTITUTIONAL GOALS

A. Student Success	B. Teaching & Learning Effectiveness	C. Access & Growth	D. Community, Economic & Workforce Development	D. Organizational Effectiveness
Our primary goal is to promote student success. We define success as students achieving their educational goals. This success is reflected in students' performance at Imperial Valley College as well as in their later achievements in education and the workplace. We also look at the intellectual skills that students develop while at Imperial Valley College, such as critical thinking and the ability and desire to engage in lifelong learning. Student success also measures the education of the whole person for engaging in an increasingly complex and interconnected world.	We are committed to providing the highest quality instructional programs in transfer, career technical education and general education, using the best current and emerging instructional methods and technologies. The college promotes flexible teaching and learning methods to support the success of its diverse student population.	As a community-based institution, Imperial Valley College strives to be responsive to the growing communities within the district. To meet the challenges of population growth, we pursue new delivery approaches to provide a high level of access to education. We also provide comprehensive support services to assure access by reducing or eliminating significant barriers and by promoting diversity. We are committed to ensuring that students from a wide variety of backgrounds have an equal chance to achieve their educational goals.
