Footnote Appendix

Footnote 1: Starting Enrollment Intensity

For the 2014 cohort, non-degree-seeking students were included in the full-time and part-time categories. Beginning with the 2015 cohort, non-degree-seeking students were reported in a separate category and are not included in this report. Therefore, for some cohorts, the sum of full-time and part-time students may not match the overall cohort count.

Footnote 2: Persistence: By Race/Ethnicity

The 'Other' race/ethnicity category includes students who were reported as non-resident alien, American Indian or Alaskan native, Pacific Islander, or Native Hawaiian or other Pacific Islander. The 'Race/Ethnicity Unknown or Missing' category includes students whose race was reported as Unknown as well as students for whom no race/ethnicity value was provided.

In the graphs, every race/ethnicity category is represented although the marker for every category may not be visually distinguishable. This is because, in some cases, the values for 2 race/ethnicity categories are almost identical and their markers are the same shape. In these situations, one marker may be hidden behind another. This gives the appearance of a missing race/ethnicity category in the graph.

Footnote 3: Retention: By Race/Ethnicity

Counts for students whose Race/Ethnicity was reported as non-resident alien, American Indian/Alaskan native, Pacific Islander, or native Hawaiian/other Pacific Islander have been rolled up into the 'Other' category. Counts for students who were reported as race Unknown or whose race was missing have been classified as 'Race/Ethnicity Unknown or Missing'.
